FOREWORD TO THE REISSUE

This volume of the Colonial Records of Georgia provides scholars and interested readers with the opportunity to look closely at the paperwork generated by “The Trustees for Establishing the Colony of Georgia in America,” more commonly known as just “the Trustees.” As stated in the subtitle, that paperwork includes a wide variety of documents such as formal appointments to official positions, specific directions to those officials, land grants of all sizes and to all types of colonists, and other important correspondence. Oftentimes, historians overlook these records because of their dense legal prose, but hidden within this complicated language lies the opportunity to study this unique governing body for its successes and its failures.

In most studies of early Georgia, the Trustees appear as aloof administrators who are completely out of touch with reality. As an organization, they seem like an amorphous body of aristocrats who supervised the colony from afar. They are criticized for designing an idealistic, impractical, and ultimately unworkable plan whereby the “worthy poor” of England—men experiencing hard times because of circumstances beyond their control—would have the opportunity to start their lives over in a new place with close supervision to prevent them from falling into poverty again. The Trustees would provide that close supervision by retaining all power—legislative, executive, and judicial—for themselves, and they expected their subjects to comply willingly and gratefully with all their directives. They issued a series of strict regulations that included very specific rules about land inheritance, agricultural activities, labor policy, the Indian trade, and even alcohol consumption in an effort to protect their colonists from venturing back down the path to financial ruin. As it became apparent that their ideas were not working as they had planned, the Trustees entrenched and defended

their position instead of making practical modifications to conform to the reality of the situation in coastal Georgia. This choice, however, only led to more problems and added to their not wholly undeserved reputation as being detached from reality. They eventually lost interest in their charitable venture as their administrative duties became more tedious and the entire project decreased in popularity in England, and they finally surrendered their colony to the Crown in 1752 after almost twenty years of countless challenges and complications.

This overly negative portrayal of the Trustees wrongly casts them as the “bad guys” who exerted a heavy hand over their poor and destitute subjects simply because they could. In fact, the Trustees had almost no applicable experience when it came to running a colony and were simply addressing issues as they became aware of them. They seemed to have good intentions when they kept all authority to themselves because they knew their subjects lacked any practical knowledge about governance and also suffered from the stigma of previous economic adversity. By expecting their colonists to consult with them on all matters, however, the Trustees stalled any developments that might occur in the meantime. The vast distance between Savannah and London obviously frustrated any possibility of quick communication, and other extenuating circumstances such as weather and war postponed ships carrying correspondence even longer.

Moreover, the very bureaucracy of the Trustees worked against speedy responses as well. They needed to have a quorum to vote, and they often sent matters into committee for further investigation, which resulted in additional delays. Many of the documents contained in this volume come from the Common Council, which consisted of a certain number of Trustees tasked with finalizing the decisions that the entire body of Trustees had made. Because the original conceivers of the Georgia project anticipated that the number of Trustees would increase over time and because it would be unwieldy to expect all of them to participate fully in every aspect of administration, it made sense to delegate the actual writing of their orders to only a select few.¹ However, by doing so, they added another time-consuming layer of bureaucracy to the governing process. Nevertheless, their resulting paperwork represents a valuable source of documentation, much of which occupies this volume.

Rather than creating one overarching governmental organization run by local colonists to attend to everyday activities, the Trustees chose to appoint specific officials to certain offices as the need appeared. This volume contains many of those appointments and shows the emergence of the various issues that required some sort of immediate oversight. Obvious positions included a minister for religious affairs and a secretary to direct the Indian trade, but others such as a botanist seem almost trivial to modern readers in comparison. The Trustees did create the fundamental managerial offices of bailiffs, constables, court recorder, and several others to provide basic law and order, but these essential positions also necessitated selection of capable individuals to fill them as well as explanation of their responsibilities. Those explanations usually involved lengthy lists of instructions that went far beyond the main duties that should be expected of that particular job. Oftentimes, to stay informed about what was happening in the colony and issue orders accordingly, the Trustees commanded these individuals to supply lengthy, detailed, and even daily records of the situation in the colony. This volume includes many of those appointments along with those precise instructions and provides historians with a window through which to view the Trustees' excessive attempts at administering their colony from afar, which contributed to the charitable project's ultimate demise.

Historians may criticize the Trustees for their micromanagement of their colony, but they should also recognize that their meticulousness demonstrates just how seriously they took this endeavor. According to their charter, they could not profit in any way from their activities in Georgia, but they could help their subjects do so. The Trustees wanted to provide as many opportunities as they could while forestalling the possibility of failure, and they believed they were making decisions that would support the colonists, not hamper or hurt them. This volume represents the very beginning of the colonial project, when the Trustees were full of enthusiasm and zeal for their undertaking and had a positive attitude about the future. Their diligence and dedication are admirable and are reflected in the attention to detail that went into these documents. The Trustees did not know how their colonial venture would turn out when they began, and when historians look back and evaluate what the Trustees did not accomplish, they should also acknowledge

the original aspirations of these well-intentioned aristocrats and how they went about trying to realize them. This volume embodies their initial optimism and offers numerous opportunities to study what the Trustees sought to achieve.

The time has also come to revisit the Trustees themselves, as individuals and as an institution. James Oglethorpe has obviously received the most scholarly attention, but other men back in England also worked hard to make Georgia a success and should be recognized for their efforts. The Trustees as a unit serve as one example of the many different approaches the British Empire took toward administering its colonies. A close examination of the Trustees' inner workings and its relationships with other British governing bodies such as Parliament and its many committees as well as the various royal councils has yet to be done.

In addition, scholars can treat the Trustees' endeavor as an exercise in colonialism. The British Empire had already established countless colonies by the time the Trustees founded Georgia, and it would go on to create many more over the next century and a half. Comparing the Trustees' approach to colonialism with other ventures elsewhere in the world would yield interesting results and bring Georgia into the fold of global history. Too often, individual colonies get pigeonholed into their own niche by limited and exclusive studies that fail to make broader connections to other colonial projects, but with the surge of interest in globalization in the twenty-first century in all aspects of life, it is only reasonable, and indeed necessary, to apply that same approach to history and to colonial Georgia. This volume showcases the administrative aspect of those endeavors and provides an excellent opportunity to compare it with other colonial undertakings around the world.

More specific opportunities exist within this volume as well. Environmental historians can get a closer look at the Trustees' land policies, both in terms of how they divided up the landscape as well as how they expected their subjects to use it. Economic historians can benefit from looking at these same documents and gleaning from them the ways that the Trustees planned to make their colony financially viable. Legal historians can watch the colonial court system develop and evolve from its very beginning. Biographers can find the names of the important characters that grace the stage of early Georgia, such as Thomas Causton, Henry Parker, Thomas Christie, Peter Gordon, and Patrick Tailfer.

In the end, the Trustees failed to achieve their objectives when it came to colonial Georgia. Scholars, however, must temper their judgment of that failure and also appreciate what the Trustees sought to accomplish by teasing out the important lessons they offer to the many facets of colonial history. This volume allows historians to do just that.

PREFACE

The history of Georgia's colonial records has been a varied one. Her customs records were destroyed in early 1776 when the vessel upon which they had been stored for safekeeping was burned during the "Battle of the Rice Boats" at Savannah. During the Revolutionary War, Georgia sent many of her records as far north as Maryland to protect them, and some of these never found their way back to Georgia. Many old records were left at Milledgeville when the state's capital was moved to Atlanta in 1868. As late as the twentieth century colonial records were destroyed in Savannah to make room for current records. Normal loss and destruction through improper use and storage over the years have taken their toll as well.

With all this loss and destruction, it is not surprising that most of the colonial records which survived are the letters, reports, and other documents sent to London by colonial officials and now deposited in the Public Record Office. Georgia first had these records copied in the 1830s and 1840s and they were used by several historians before being burned accidentally in the late nineteenth century. Early in the twentieth century the Georgia volumes (mainly P.R.O., C.O. 5/636-712) were copied a second time by the State.

Between 1904 and 1916 twenty-five volumes of these transcripts were published as The Colonial Records of the State of Georgia (Volumes 1-19, 21-26). Allen D. Candler began compiling and printing these volumes, and William J. Northen and Lucian Lamar Knight assumed the work after Candler's death in 1910. Essentially Candler, Northen, and Knight arranged the transcripts and printed the volumes with no further editorial apparatus.

Immediately the published volumes had an influence upon the writing of Georgia's colonial history. The unpublished transcripts, arranged in fourteen volumes in the state archives, have been used considerably less.

Publication of additional volumes, sponsored by the Georgia Commission for the National Bicentennial Celebration and the University of Georgia Press, was begun in 1976 as a part of Georgia's participation in the nation's Bicentennial. Publication has continued since as funds have become available.

INTRODUCTION

Volumes XXXII, XXXIII, and XXXIV consist of the Trustees' Entry Book of commissions, powers, instructions, leases and grants of land, agreements, appointments of various officials, orders and answers of the Trustees, letters of attorney, memorials or petitions to the King and various administrative offices and to Parliament, and annual abstracts of accounts, number of new settlers, and lands granted.

Most of the decisions which brought these documents into being are briefly referred to in the Journal of the Trustees or the Minutes of the Common Council of the Trustees (printed in Volumes I and II of this series). But the full documents give much more information not in the Journal or Minutes. Thus Trustee policy and changes in it can sometimes be more clearly seen than in previously published volumes.

There are more documents concerned with land granting than any other single topic. A number of these grants are in minute detail, but most refer to an earlier full grant or document. One thing made clear by these grants is that the Trustees were willing to grant inheritance rights to women and people other than the eldest son of the grantee, if the grantee requested it. These grants make it clear that women received considerably more inheritance rights than an adherence to the general rules of the Trustees would have allowed.

The documents in these volumes were written by Benjamin Martyn, the Secretary of the Trustees, and Harman Verelst, Accountant to the Trustees, apparently the only office force the Trustees ever had. Usually general matters were handled by Martyn and fiscal ones by Verelst, but both might write about any subject when the other was not available.

Little is known about Martyn and Verelst. There is a brief sketch of Martyn in the Dictionary of National Biography, XII, 1199-1200. Trevor R. Reese wrote "Benjamin Martyn, Secretary to the Trustees of Georgia," Ga. Hist. Quarterly, XXXVIII, 142-147, and "Harman Verelst, Accountant to the Trustees," ibid., XXXIX, 348-352.

This volume, the first in this series of three, shows Trustee indecision and changes of policy, especially about land granting, early in the life of the Trust. As time went on things became more routine and there were fewer changes. As always in the Trustees' life, much more work was done by the Common Council of the Trustees rather than by the full body of the Trustees.

Editorial Guidelines

The volume divisions created by Allen D. Candler and Lucian Lamar Knight, the original compilers of this series, have been retained. This will facilitate references in works already published which used these volumes in manuscript.

Original spellings are retained unless the meaning is not clear. (Note. The Old English thorn "th" was usually written and printed as "y" in the early eighteenth century. This has been kept throughout this text. Thus "ye" is "the," "yt" is "that," and "ym" is "them.") All raised letters have been lowered, abbreviations that are not clear have been expanded, and slips of the pen have been corrected silently. A single word may be explained in brackets immediately after its appearance in the text. More lengthy explanations will be given in footnotes. Punctuation, often scarce in eighteenth century manuscripts, has been supplied sometimes for the sake of clarity, though many sentences are long by modern standards. No attempt at uniform spelling, even of proper names, has been attempted; rather the original text has been followed. For proper names, a single most common spelling has been used in the index.

In the manuscript there is no consistency in the system of money notation. Thus £1.7.10 might be written that way, £1:7:10, or £1..7..10. Colons have been left as written, but the .. has been changed to a single period. When the pound sign is given after the figure it is often written as a lower case l with a line through it (ł). These have been changed to £ for the sake of clarity.

Each document is given a short introduction which consists of the office of origin, date, Public Record Office location, and topic or topics treated.

Translation of the above Document.¹⁶

To all to whom these presents shall come, the Trustees of the Colony of Georgia in America send heartfelt greetings. Inasmuch as there is nothing of greater concern to the most powerful king of Great Britain George II than that he should aid the poverty and miseries of the poor, not only among his subjects but also among the foreigners who are compelled to abandon their own country for religious sake, his British Majesty has decreed that for this purpose a colony shall be founded under his own protection in the territory in America which is subject to his dominion, and he has committed the care and

administration of this colony to us through his own patent letter sealed with his own royal seal of Great Britain. We, therefore, the Trustees of the aforesaid Colony, relying on and fortified by this royal authority, having been informed of the humanity and zeal for truly Christian piety of the very reverend and learned man, Samuel Urlsperger, the most worthy rector of the Church of St. Anne in Augsburg, have adjudged the same should be empowered with full authority, and so through this present letter we do properly authorize him to admit as colonists any exiles or emigrants from their own country who for the sake of professing the gospel wish to join the aforesaid colony and to set out for America, and that he should treat with them concerning conditions which are suitable and fitting in accord with the form of those conditions which, concerning this matter, we have thought it just to prescribe and which are attached to this our letter; and we promise that whatever shall have been transacted and agreed upon by the said Mr. Urlsperger with the aforementioned exiles or emigrants shall be right and pleasing and acceptable to us. In pledge of which we have taken care that our common seal should be affixed to this our letter which has been written by our secretary at our command. Given on the 12th day of this month of September in the year of Our Lord 1733 and the seventh of the reign of his British Majesty.

To the King's Most Excellent Majesty.

The humble Petition of the Trustees for the Colony
of Georgia.

Humbly Sheweth.

That Your Petitioners ever since their being incorporated by Your Majesty's Letters Patent have Applied themselves to the Procuring Settlements in the Province of Georgia for many familys of your Majesty's Subjects who were fallen into Decay and become unable to Subsist themselves without being a burden to the Publick.

And Having been Encouraged by considerable Contributions (made with your Majesty's Permission) towards the relief of the Persecuted Saltzburghers; We have Undertaken to settle for the present Three hundred of the said Saltzburghers in Your Majesty's Province of Georgia. And the Sieur Urlesperger Senior Pastor of the Lutheran Church at Augsburg being employed by us for that purpose has lately informed your Petitioners that he meets with great Obstruction in this good work from the Popish part of the Magistracy of Augsburg, who will not suffer the Saltzburghers Engaged to settle in Georgia to Enter or Abide in their City. But force them to quarter without the Gates to their great Inconvenience and Expence.

We therefore become humble Petitioners to your Majesty That You would be Pleased to send Your Royal Instructions to Your Minister at Vienna to apply in the best manner he shall think proper at the Imperial Court that the Popish Magistrates at Augsburg may be induced to consent as well as the Protestant that our said Colonists may be admitted into their City & have liberty to continue there 'till such time as there are a sufficient Number to set out together on the intended Journey; since by the Contracts they are entred into they may be looked upon as being now become Subjects to your Majesty, and as such are Intitled to all good Usage within the Empire Agreeable to the Peace and Amity Subsisting between Your Majesty's Dominions, and those of the Emperor of Germany.

Common Council Grant of 500 acres of land to Nicholaus Ludovicus, Count of Zinzendorf and Pattendorf. Jan. 10, 1734/5. C.O. 5/670, p. 158.

An Indenture of Grant and Enfeoffment dated the Tenth day of January 1734 to Nicolaus Ludovicus Count of Zinzendorf and Pottendorf of the Holy Roman Empire Lord of the Lordships of Freydeck Shoeneck Turnstein & Halswack and so forth Of Five hundred Acres of Land in Georgia and of the same Tenor as the Indenture to James Houstoun Entd. in Page (125)²⁶ As by a Counterpart thereof remaining with the Trustees at large appears.

Common Council Instructions of the Bailiffs and Recorder of Savannah in the case of Joseph Watson.²⁷ Jan. 17, 1734/5. C.O. 5/670, pp. 158-160.

To the Bailiffs and Recorder of the Town of Savannah in the Province of Georgia in America. The Trustees very much Approve of your Conduct in Mr. Watson's last Affair, and will always Support those who Act with Justice and Intrepidity in putting the Laws in Execution for the good of the Province. And Mr. Causton acted very Judiciously in regarding the General Interest and Safety preferable to any private Consideration. In justly Confining one Man, rather than Risqueing the Safety of the whole. Mr. Watson's behaviour has been so cruel, and has shown so much premeditated Malice, That his destroying Skee with Rum and then bragging of it Appears to the Trustees Murder, for Killing a Man, upon a fore thought and with malicious design, by means of a dangerous Liquor, Is as much Murder as killing him with any Sort of Weapon.

But as the Jury have brought him in Lunatick & therefore incapable of making his Defence The Trustees direct, that he should be

26. See above pp. 80-81.

27. More details on Watson's case can be found in Temple and Coleman, Georgia Journeys, pp. 81-89.

confined as a Lunatick and proper Care taken for his Recovery, until he shall be in a Condition to take his Tryal. For which Tryal a special Commission will be sent over, And You at your Perils must take Care that he shall be forth coming when such Commission shall Arrive.

And no other Proceeding must be had on his Affair until the Arrival of the said Commission.

The Trustees are apt to Impute the Death of Skee (which has been a very great Detriment to the Province, by the Loss of so bold a Warrior, who both had been and would have continued of the utmost Service upon the Spanish Frontiers) to the Consequence of too great a Mildness, or rather Injustice in letting Mr. Watson go off with so slight a Fine when he was first convicted for the Assault on Estechee.

You know that the Indians are very nice in point of Honour and that they are not to be Insulted. Had Mr. Watson at that time been severely fined and bound to his good behaviour It had very probably prevented him from running into those Extravagancies by which he lost his Senses; and from committing this Murder; And in the Consequence thereof had prevented Justus the Servant of Mr. [John] Musgrove from being killed.

You see by this a foolish Tenderness is the greatest of Crueltys. It has occasioned the Death of two Men, and if that kind of Spirit should continue of not punishing the Guilty, You will destroy Yourselfes.

It is very surprizing to the Trustees That any Magistrate could think of Bailing a Murderer, for Murder is notailable. And bailing of a Lunatick is an Act of Lunacy; for his Distemper makes his Confinement necessary for the benefit of Mankind.

The new Started Opinion, That it is cruel to Imprison on Account of an Indian, is Itself very cruel and pernicious. For if Injustice is done to an Indian, the Person who does it, should be more severely punished; for doing it to one who is helpless from his Ignorance of Our Language, And because it is a Breach of Treaty, and an Act of Ingratitude to the first Possessors of the Land, who have always been exceeding friendly and kind to the Colony in its first weakness and Necessitys.

And as for the opinion, That it is right to let a Guilty Man go out of the Province without Punishment, That is giving up at once those valuable Priviledges of Trying all Fracts²⁸ committed in it; and declaring Your selves incapable of supporting a Civil Government. If a Man is guilty You should Punish him in the Province according to his Deserts. And if he is not Guilty, You should acquit him. But you have no such thing as a Power of Banishing a Man from the Colony, nor ought You to let a Criminal Escape to another Colony in Safety.

The Expences arising by Mr. Watson's Confinement and also for the taking Care of him and having a proper keeper to watch him will be

defray'd by the Store keeper at Savannah, till such time as they can be Defray'd out of his own Estate. And he being a Lunatick It is impossible for him to carry on the Indian Trade; The Trustees therefore hereby Recall his Licence and Continue the Licence to Mr. & Mrs. Musgrove.

of the Trustees the 17th of March

Trustee Petition to the House of Commons for funds to settle Salz-
burgers in Georgia. April 30, 1735. C.O. 5/670, pp. 168-169.

To the Honourable the Commons of Great Britain in Parliament as-
sembled

The Petition of the Trustees for Establishing
the Colony of Georgia in America

Humbly Sheweth

That Whereas His Majesty hath been graciously pleased to take into Consideration that many of his poor subjects and many Foreigners who are willing to become his Subjects are reduced to great Necessities and would gladly be settled in the British Provinces in America, where by cultivating the Lands at present waste and desolate they might not only gain a comfortable Subsistence for themselves and Families but also strengthen His Majestys Colonies and increase the Trade Navigation and Wealth of Great Britain.

And Whereas His Majesty for the more orderly carrying on the said good Purposes hath by his Royal Charter, bearing Date the Ninth Day of June A D 1732, constituted a Body Politick and Corporate by the Name of the Trustees for establishing the Colony of Georgia in America and hath granted unto the said Trustees and their Successors for ever certain Lands and Territories in South Carolina in Trust for establishing the said Colony and hath erected the same into an Independent Province by the Name of Georgia and thereby empowered the said Trustees to take Subscriptions and to gather and collect such Monies as should by any Person or Persons be contributed, which said Trustees are at their own Desire restrained by Clauses in the Charter from receiving any Salary, Fee, or Profit whatsoever.

And Whereas many Saltzburghers and other persecuted and distressed Protestants would be glad to go and settle in the said Province of Georgia, where they may find under His Majestys Protection an Asylum from Persecution and Arbitrary Power, but are unable at their own Charges to transport themselves thither. And as the settling them there will be a Charity highly becoming this Protestant Kingdom, the employing them in raising rough Materials for several of our most useful Manufactures (with which none of our Plantations at present supply us) will be of great Service to the Trade of this Nation, increase the Number of His Majestys Subjects and give further Employment to our Poor at home.

And Whereas Your Petitioners (notwithstanding the Benefactions of many well disposed and charitable People) find themselves unable to send over any Number of the said distressed Protestants without the Assistance of Parliament.

We therefore Your Petitioners do humbly Pray
this Honourable House to take the Premises
into Consideration, and grant such Relief therein
as this Honorable House in their great Wisdom
shall think meet.

Trustee Petition to the House of Commons for funds for Georgia. Undated.²⁹ C.O. 5/670, pp. 169-170.

To the Honourable the Commons of Great Britain in Parliament assembled.

The Humble Petition of the Trustees for Establishing
the Colony of Georgia in America

Humbly Sheweth

That Your Petitioners by the Assistance given them by this Honourable House in the last Parliament in 1733 together with the Contributions of well disposed Persons have been enabled to proceed so far in the Execution of the Trust reposed in them that as Lady day³⁰ 1734

29. Undated, but evidently the petition authorized Feb. 26, 1734/5. See CRG, I, 204-206.

30. March 25.

there were settled in the Province of Georgia above One thousand persons, consisting of Such distressed Familys whose Circumstances deprived them of a Comfortable Subsistence here; and of Such Foreigners being Protestants as had been drove out of their County by Popish Persecution on Account of their Religion, and of others who have at their own Expence Settled themselves in this Colony. And untill the Ground is cleared and produces a Crop there is a Necessity for their being for the greatest part Subsisted at the Expence of the Trust.

That the principal Town named Savannah is already built, consisting of a great Number of houses and daily increasing, and a County laid out of the same name in which several Villages & Settlements are begun, and Forts already built upon the Principal Passes for the Defence of the whole.

That for the maintaining of good Government in the Colony, proper Courts of Judicature have been erected and civil Magistrates appointed.

And for the Conveniency of Ships frequenting of that Coast a Beacon is begun and near finished upon the Point of Tybee Island lying at the mouth of the River Savannah.

That by several Experiments already made by your Petitioners Directions They have found that the Soil and Climate of Georgia is proper for producing Wine, Oyl, Silk and other valuable Commodities which at present are purchased from Foreigners with ready Money.

That Your Petitioners think themselves obliged to observe the Importance of the Situation of this Province, which extending from the Sea to the Apalatian mountains (from whence descent great and wide Rivers) affords an Opportunity by making regular Settlements upon the banks thereof with White People to procure a Security not only to Carolina but to the other English Settlements upon the Continent of America and to prevent the Attempts of those who (in Case of a War) would endeavour to be Masters of the Same; By the loss of which, the Interest of this Nation in its Trade Navigation and Manufacture would be greatly affected.

Your Petitioners humbly hope that the Premises Considered, This Honourable House will Enable them to Carry on the good Work so happily begun on which so greatly depend the Increase of the Trade of this Kingdom, the Security of our Colonys on the Continent of America, the Providing a Comfortable Retreat for Persecuted Foreign Protestants and other Indigent Industrious Foreign Protestants as well as many of our own unfortunate Country Men who cannot Subsist at home.

And therefore Pray this Honourable House will give them such Assistance in the Premises as They in their great Wisdom shall think meet.

Trustee Memorial to the King for £1500 reimbursement for Indian negotiations in Georgia. Aug. 21, 1734. C.O. 5/670, pp. 173-174.

To the Kings Most Excellent Majesty.

The Humble Memorial of the Trustees Appointed by Your Majesty's Charter for Establishing the Colony of Georgia in America

Sheweth

That to establish the said Colony and securely settle the People who so earnestly laid hold of Your Majestys Gracious Offer of Lands in the Province of Georgia the Trustees found themselves immediately under a Necessity to cultivate a Strict Friendship with Tomo Chachi Micho or King of Yamacraw and also with the other Michos or Kings & Nations of the Upper and Lower Creeks, whose Friendship is of the greatest Consequence to the Safety not only of Georgia, but of Carolina and all the Southern parts of Your Majestys Dominions on the Continent of America, and especially at a time when the French were (according to the best Advices) making proper Dispositions to extend their Borders and advance much nearer to the Province of Carolina. It became therefore necessary the more effectually to secure the Amity between them and Your Majesty's Subjects and to Prevent the Designs of the French to build a Fort among these Indians and that the negotiating this Affair should be managed by such as were not obnoxious to them on account of a long and bloody War which had formerly been carried on between them and the People of Carolina and which altho' ended appeared still to be resented by the Indians, and accordingly by our direction at the Solicitation of the Governor and Assembly of Carolina it was Undertaken with such Success that a Treaty of Commerce and Amity between the Colony of Georgia and them hath been Settled and their Consent obtained for building a Fort among them on the only River over which the French can invade Your Majesty's Province of Carolina; Which has been look'd upon by that Province as so essential to their preservation in case of a Rupture between England and France, that they have Voted a Supply of Eight thousand five hundred Pounds of their Currency to be raised in two Years to commence in the Year 1735 making something more than One thousand Pounds Sterling for reimbursing in part the Expences of this important Service.

But May it Please Your Majesty to allow Your most dutifull Subjects to Represent to You That these Publick Services so Essential to the Preservation of your Majesty's Dominions on the Continent of America have been carried on by the Trustees with a zeal very disproportionate to their Abilitys having no other Fund for Discharging the great Expence of Engaging the Friendship of this Nation by considerable Presents Building a Fort in their Country, and Preventing their being Drawn into the French Allyance. But the Sum of Ten thousand Pounds granted by Parliament for defraying the Settlement of several

of Your Majesty's poor Subjects and of several persecuted Foreigners desirous to become Your Subjects, and the Charitable Contributions of Private People and Communities amounting to Five thousand three hundred and Fifty pounds, both which Sums are already very near Expended for those Purposes for which they were given, there being now near a thousand Souls in that Colony, Six hundred of which will Perish if not Subsisted till such time as they have Cleared & Cultivated the Land.

And as the Carolina Fund cannot under Years produce a Sum to Reimburse what has been laid out by us for these Necessary Services. Therefore we are become Humble Petitioners to Your Majesty that the Sum of Fifteen Hundred Pounds at least Expended by us in the abovementioned Publick Services be Repayed us.

Sign'd by Order of the Trustees this 21st.

To The Kings Most Excellent Majesty.

That Tomo Chachi, Micho by Interpretation King of Yamacraw with Senauki his Wife; Tooanahowi his Nephew; Umpychi one of the Chief of Pallachocalas, Hillispylli a chief Warrior, three Attendants, and an Interpreter making together nine Persons, Who arrived at the Trustees Office in Westmr. the 28th. of June last & were lately Admitted to an Audience of Your Most Gracious Majesty, are the Representatives of the Creek Nation Seated on the South and Extend from thence to the North West of the Province of Georgia, between Our Settlement and those of the Spaniards at Augustine, and of the French on the Mississippi & Moville Rivers.

That the Cultivation of their Friendship is of the greatest Consequence to the Safety not only of Georgia, but of Carolina and all the Southern Parts of Your Majesty's Dominions on the Continent of America.

The Trustees therefore most humbly Desire Your Majesty will be Pleased to give Orders for the Defraying the Charges of the Passage and Entertainment of the said Indians during their Stay here and for such Presents at their departure as was Practised in the late Queen's

Reign with regard to the five Nations Whose Friendship was thereby Secured, to the great benefit and Security of Your Majesty's Provinces on the North of America. As the Friendship of this Nation may now be secured for the benefit & Preservation of Your Majesty's Subjects in the Southern Parts of Your Dominions on the Continent of America.

For the General Meeting of the Trustees for establishing the Colony of Georgia in America to be held the 18th of March 1735.

After reading the General Abstract It is observed That of the Sum of £26,756.17.8 received since the 9th of June 1735, for establishing the Colony and for particular Persons £9.10.- is the Produce ariseing from Bonds taken from Foreign Protestants to the Value of £44.- part of 600£ advanced with His Majesty's Benefaction for that purpose for the Passage to Georgia and Necessarys for them. Which Produce as to 9/10ths. parts thereof is to be applied towards establishing an English School and for such other Charitys as the Georgia Trustees shall direct, and the remaining 1/10th. part for the Benefit of the Hershouters settled in Georgia.

That of the Sum of £383.12.9 received since the said 9th. of June for building Churches, the Mission, a Catechist, and other Religious Uses £230.13.- was Benefactions for the Mission Whereout the £106.18.10 1/2 applied has been wholly out of the said Benefactions for the Mission. Whereby the Balance unapplied of the said Benefactions is £125.14.1 1/2.

That the Moneys for building Churches paid in by Benefactors amot. to the Sum of £215.7.9 for a Catechist to 20£ but there is 10£ due for a year ending last month (being to be continued for 2 Years certain or the Benefactors Life if exceeding the 5 years) for to buy Bibles, Common Prayer Books, and the whole Duty of Man to £10.10.-. And for the other Religious Uses of the Colony to £111.5.4 3/4. All which added to the Balance unapplied for the Mission make together £480.17.3 1/4 Unapplied.

That the Appropriated Money to be Applied out of the 26,000 £ towards building Churches in Georgia together with the abovementioned Sum paid in for that Use, and the further Sum of £265.10.- Subscribed to be paid in one month after demand & to be applied for the same Use, Amount in the whole to the Sum of £652.3.4 towards building a Church at Savannah and another at Frederica in Georgia.

That the Reason for so large a Sum returned in Super is because the Accompts returned from Mr. Chardon & Mr. Causton cannot be adjusted till the Querys thereon are answered. And the Charge on Mr. Chardon amounts to £5,177.10.0 1/4 and Mr. Causton's Bills to £3,615.13.- part of the said Supers which together make £8,793.3.0 1/4.

The Monies remaining unapplied by the said General Abstract appear to be the Sum of 7,736.1.5 1/2
Whereof paid for the Botnists Salary

And such Variation not being duly Accompted for to the Trust.

That of the Balance for establishing the Colony & for particular Persons the following Sums remain unapplied for particular Persons. vizt.

Trustee Memorial to the Queen in answer to Don Tomas Geraldino's⁵⁶ complaints against the inhabitants of Georgia. Oct. 20, 1736. C.O. 5/670, pp. 289-291.

56. Don Tomas Geraldino was the Spanish Minister to Great Britain.

Answer to Monsieur Geraldino's Complaints against the Inhabitants of Georgia.

SEAL

To the Queen's Most Excellent Majesty Guardian of Great Britain;
and His Majesty's Lieutenant within the same.

May it please your Majesty

In Obedience to Your Majesty's Pleasure signified to us by his Grace the Duke of Newcastle the 27th. of last month We the Trustees for establishing the Colony of Georgia in America have enquired into the Complaints against the Inhabitants of the Colony of Georgia contained in a Letter which his Grace the Duke of Newcastle received from Monsr. Geraldino Agent for the King of Spain.

And as to the first matter of Complaint mentioned in Monsr. Geraldino's Letter relating to the Fortress (situated in the Territorys of the King of Spain eight Leagues distant from St. Augustine) said to be attacked by the Inhabitants of Georgia the 3d. of March last; & that after they had killed a Soldier belonging to the Spaniards who defended, it they cut his Head off and carried it away with them in triumph.

The Trustees on examining the Accounts transmitted to them, do not find that any either English or Indians inhabiting the Province of Georgia had been concerned in the Outrage complained of But that the same was committed by some Neighbouring Indians, in Revenge for a more unheard of and Outrageous Injury acted by some Spaniards or Spanish Indians who had killed some Indian Women and Children and two Men, and after most wickedly abusing another Indian Woman, had burnt her alive.

As to the next Complaint in Monsieur Geraldino's Letter of rebuilding a Fort which he alledges had been formerly demolished by Order of the Court of England at the Request of the Court of Spain.

The Trustees Most Humbly Observe to your Majesty That the Spanish Minister has been very much misinformed; For that the said Fort having been left by the Independant Company without the Consent or Knowledge of His Majesty, was Ordered to be rebuilt by an Instruction from His Majesty to the late Governor [Robert] Johnson.⁵⁷

As to the Advices in Monsieur Geraldino's Letter mentioned to have been received from the Lieutenant of the Fort of St. Mark in the Province of Apalache, That the Indians of the Provinces of Uchisses and Talapuzes Subjects of the King of Spain had complained that the English were then employed in building a Fort on the Territory of His Majesty of Spain, which are inhabited by the Uchissise Indians and that they had even given out that they intended to build another on

57. This would have been Fort King George, at the Georgia site of Darien.

the Territorys of the Talapuze Indians to the North West of St. Augustine.

The Trustees Most Humbly represent to Your Majesty That they never gave any Directions for any Settlement to be made or Forts to be built but within the Limits of the Province of Georgia, as described by His Majestys Most Gracious Charter And That if the said Uchissese or Talapuze Indians inhabit within the same, they undoubtedly are within His Majesty's Dominions and ought by no means to be Stiled Subjects of the King of Spain.

And as to the further Complaint That another Party of three hundred English had appeared on the Frontiers of the Province of Apalache, and that having Set up a Standard of War in a Town of Indians called Apalachicola, they had Summoned the chief Town of the abovesaid Province called Caveta to join them in order to make War against the Spaniards; acquainting them at the same time that they were resolved to demolish the Fort of St. Mark and afterwards to besiege St. Augustine.

The Trustees Most Humbly represent to Your Majesty That they have always had it at heart in the making their several Settlements to avoid all occasions of Contest with the Neighbouring Nations in Alliance with the Crown of Great Britain and do not believe that any of their People can have Acted so contrary to the designs and intentions of the Trustees and cannot but think that on a further Examination it will evidently appear That these Reports have been spread without any proper foundation; And that none of the People of Georgia have made any Incursions into the King of Spain's Dominions or in any wise Molested his Subjects. The Trustees having in all their Actions confined themselves to the Limits which by His Majesty's Charter are given to the Province of Georgia; to which they make no question but His Majesty has a Most Undoubted Right and Title, nor do they observe in the Treatys referred to by Monsieur Geraldino, anything contrary thereunto.

All which is Most Humbly Submitted by
Your Majesty's Most Dutifull and Obedient
Subjects and Servants the Trustees for
establishing the Colony of Georgia in
America.

Signed by Order of the said Trustees
this 20th. day of October 1736.

May it please Your Majesty

It is with great Concern That We find Our selves obliged to lay before Your Majesty a Representation of the Disregard shewn to Your Majesty's Authority by the Lieutenant Governor Council and Assembly of South Carolina in openly opposing the Execution of an Act Approved by Your Majesty in Council on the third day of April 1735 intituled an Act for maintaining the Peace with the Indians in the Province of Georgia; Notwithstanding That Your Majesty was Pleased by a Letter Transmitted by His Grace the Duke of Newcastle the 11th. of October 1735 to Recommend to the Lieutenant Governor and Council of that Province their giving all Countenance and Assistance for the Execution of the said Act. But May it please Your Majesty instead of paying the Regard due to such a Recommendation or to an Act which had the Sanction of Your Royal Approbation in Council They proceeded so far in their Opposition as to Pass an Ordinance in an illegal manner for raising Two thousand Pounds Sterling to indemnify the Traders from Carolina in their Contempt of the said Act. And in Consequence of this illegal Ordinance several Traders came from Carolina into the Province of Georgia, and in particular Thomas Wright a Transported Convict was employed as a licensed Trader from Charles Town to animate the Indians inhabiting within the said Province against Your Majesty's English Subjects by a great many villainous Reports and Suggestions, which occasioned the pulling down of an House within the Bounds of the Province of Georgia and the further endangering the Peace of the said Province.

And therefore, Your Majesty's Dutiful Subjects the Trustees for establishing the Colony of Georgia in America Supplicate Your Majesty That taking the Premisses into Your Royal Consideration, You will be graciously pleased to give such Orders herein as May preserve Your Majesty's Subjects in the Province of Georgia from the like Violences for their endeavouring to Execute the said Act for preserving the Peace with the Indians within the Province of Georgia.

19th. of January 1736.

Trustee Answer to the Society for the Propagation of the Gospel in Foreign Parts about support of a missionary in Georgia. Jan. 19, 1736/7. C.O. 5/670, p. 297.

Answer of the Trustees to a Minute of the Society for the Propagation of the Gospel in foreign Parts dated Novr. 19, 1736.

The Trustees for establishing the Colony of Georgia have with concern received from the Incorporated Society for propagating the Gospel in foreign Parts a Message sign'd David Humphrys which seems to imply a

Doubt of the Intention of the Trustees towards making a sufficient Provision for the Missionary to be established in their Colony. The Resolution taken by the Trustees and the Orders given thereupon for improving Land for the Religious Uses of the Colony (Which may be seen in the Publick Books of their office) will sufficiently shew that they do not confine themselves to the bare Maintenance of a single Missionary, but are using proper means to have a sufficient Fund for providing likewise for a Catechist, and a School Master. And that they do at this time in fact maintain two Missionaries and a Catechist at their own Charge in that Colony.

The Trustees having given this Evidence of their sincere Intention for supporting a Religious Establishment among their People had great Reason to hope for an Encouragement from a Society Incorporated for the Propagation of the Gospel in foreign Parts, or at least that the Society would not have made an Order for the suspending the Payment of any Salary to the Missionary at Georgia before they had desired to have been inform'd what Resolutions the Trustees for the Colony of Georgia had come to.

Trustee Petition to the House of Commons for additional funds for Georgia. Feb. 26, 1735/6. C.O. 5/670, pp. 298-299.

To the Honourable the Commons of Great Britain in Parliament Assembled.

The humble Petition of the Trustees for establishing the Colony of Georgia in America.

Humbly Sheweth

That Your Petitioners did in the last Session of Parliament humbly Represent to this Honourable House the several Steps they had taken to Settle Improve and Fortify the Province of Georgia; And did at the same time Observe to them the Importance of the Situation of the said Province which extending from the Sea to the Apalatian Mountains (from whence descend great and wide Rivers) did afford an Opportunity by making regular Settlements upon the Banks thereof with white People; to procure a Security not only to Carolina, but to the other English Settlements upon the Continent of America which so greatly Conduce to the Trade and Navigation of this Kingdom.

That by the Assistance given to Your Petitioners the last Session of Parliament, they were Enabled to Subsist great Numbers of distressed Foreign and other Protestants, whom they had before sent to Georgia,

whose Lands were not sufficiently Cultivated to afford them a Maintenance. And also since that to make several Imbarkations of Men Women and Children, consisting of persecuted and other Protestants; for establishing regular Settlements upon the Banks of the Alatomaha and Ocony (which descend from the Apalatian Mountains) in order to Fortify the Frontiers of the said Colony of Georgia so necessary to defend the same and to Secure the Province of Carolina, and the other adjacent English Colonys.

That Your Petitioners cannot but with great Concern Observe to this Honourable House That by several unforeseen Accidents and by contrary Winds, the greatest part of the said Imbarkations were delayed until the Season of the Year was so far advanced that it will be impossible for those People to clear any Lands whereby to raise a Subsistence for the ensuing Year, and who must in the mean time inevitably Suffer Hardships, even greater than those they have fled from without the farther Support and Assistance of this Honourable House.

That Your Petitioners beg Leave to Represent to this Honourable House That they have used their utmost Care and Deligence in applying the Money granted them in the last Session of Parliament to the Purposes it was intended with the greatest Frugality and Oeconomy. But that they still find themselves under a Necessity to apply to this Honourable House to Enable them to Support the Persons they have already sent to Georgia, and effectually to Settle and Fortify the Frontiers of the said Colony. They having already applied and expended very near all the Moneys which have been granted them for those Purposes.

That Your Petitioners have the Satisfaction to Inform this Honourable House, That the said Colony is Capable of Producing many valuable Commoditys at present purchased from foreign Countrys with Ready Money & particularly those of Pot Ash, Wine, Oyl and Silk. Some of which Silk having been manufactured in England was found to be equal, if not to exceed, the Produces of France or Italy.

Your Petitioners therefore Pray this Honourable House to give them such Assistance in the Premisses, as They in their Great Wisdom shall think meet.

By Order of the said Trustees

Trustee Petition to the House of Commons for additional funds for Georgia. March 2, 1736/7. C.O. 5/670, pp. 300-301.

To the Honourable the Commons of Great Britain in Parliament Assembled.

The humble Petition of the Trustees for establishing the Colony of Georgia in America.

Humbly Sheweth

That Your Petitioners by the Assistances given them by this Honourable House, together with the Contributions of well disposed Persons, have been enabled to proceed so far in the settling and securing the Province of Georgia, That there are some thousands of Foreign and other Protestants now inhabiting within the said Province.

That Your Petitioners have at a great Expence Erected a Light House ninety feet high upon the Island of Tybee (an advantage hitherto unknown in those parts) to the great Encouragement of the English Navigation and the Trade and Commerce on that Coast.

That Your Petitioners have made Settlements upon the Southern Limits of the Province of Georgia on the Sea Coast of the Continent of North America, as far as the Spanish Out Guards have opened a Passage by Land for Horses and Cattle ninety miles in length from the River Alatamaha to the River Savannah, and thereby procured a Communication from the Southern part of Georgia to all His Majesty's other Provinces upon the Continent of America. And for the Security of the Southern part of the said Province have Erected the Forts of Frederica, St. Andrew & Amelia.

That a Town is laid out upon the Island of St. Simon called Frederica, and another upon the Alatomaha River called Darien, in both which Towns several Houses are already Erected and Inhabited and many others are now Building; which Towns when finished and Peopled will by their Situation be a Benefit and Defence to the Southern Frontier. But Your Petitioners are utterly unable to defray the Expences thereof until further Assisted by this Honourable House.

That the Necessitys of the Persons who have been last Settled in the said Province and of some others who have not yet been able to Cultivate Lands sufficient for their Support; make it incumbent on Your Petitioners to represent to this Honourable House the melancholy Circumstances to which they will be reduced unless there be some further Provision for their Maintainance.

That the Cultivating a good Correspondence with the Indians, the Support of a Civil Magistracy the encouraging the Produce of Wine, Oyl, Silk and other valuable Commoditys, and other accidental Charges are necessary to be defrayed in the Infant State of the Colony.

Your Petitioners therefore Pray this Honourable House to give them such Assistance in the Premises As they in their great Wisdom shall think meet.

By Order of the said Trustees

Harman Verelst. Accotant
 16th of March 1736.

For the Anniversary Meeting of the Trustees for establishing the Colony of Georgia in America to be held the 17th. of March 1736.

After reading the General Abstract It is observed That the Sum of £124.2.2 3/4 charged received in America is the Sterling Money at 7 for 1 on £868.15.7 1/2 South Carolina Currency for the Duty of 3d. a Gallon on 69502 1/2 Gallons of Rum imported into that Province from the 1st. of March 1735 to the 1st. of June 1736 Granted by the General Assembly of South Carolina the 9th. of June 1733 for the use of the Colony of Georgia.

That the Trustees have received from Georgia by the Ship Two Brothers which arrived in January last 266 Barrels of Rice and 7 Cases of Deer Skins. The Rice producing 257 barrels sold to John Duffield weighing net 1127:0:20 at 15s p Cwt. £845.7.8. 4 barrels sold to John Woodbridge weighing net 16 cwt. 1.3 at 16s p cwt. £13.--, making together £858.7.8 and the remaining 5 barrels were empty'd by the Dirt in Garbling and by Damage. Of which £858.7.8 £333.14.0 had been received and is Charged as part of the £10,701.6.7 received in England since the 9th of June 1736 and the residue will be payable on Saturday the 19th. of this Instant March. The Skins on the Entry weigh'd 3,128 pounds but are yet unsold only 2/9 a pound having been bid, and it is expected from the goodness of them they will fetch 2/10 a pound before Lady Day next, but at 2/9 a pound if they continue the same weight will produce £430.2.0 and will make the Gross Produce by the said Ship £1,288.9.8.

That to the Sum of £321.19.9 received towards the building of Churches in Georgia £171.5.7 appropriated by the Trustee for that use and £285.10.0 Subscribed for the same use to be paid at one months Notice are to be added; And make together £778.15.4 for building of Churches in Georgia.

That the Settlements are so extended from the Northern to the Southern part of the Province a Minister for each Division is become necessary; besides an Itinerant Minister for the several Villages in the Northern Division.

That notwithstanding the Society for the Propagation of the Gospel in Foreign parts did on the 16th. of January 1735 approve of Mr. John Wesley to be a Missionary at Georgia in the Room of Mr. Samuel Quincy and agreed That £50 a year should be by them allowed him from the time Mr. Quincy's Salary should cease. Yet the said Society on the 19th. of November last Ordered the Payment thereof to be Stopped. Wherefore until a Provision for the Maintenance of Ministers and Catechists can be raised from the Lands set apart to be cultivated for that use there is no present annual Provision for such Maintenance Which is Humbly offered for Consideration if it may not be proper to open a Subscription for annual Contributions until the other Maintenance can be raised.

As to the Instructing the Native Indians and Converting them to Christianity That wholly Employs the time of one Missionary and a Schoolmaster besides the occasional Assistance of the other Ministers and Benefactions often come in for that very use, which at present amount to £382.17.1 1/2 remaining unapplied.

As to the Sum of £11687.8.11 3/4 Depending on several Persons in America to Accompt for. It is necessary to explain the Reasons of so large a Sum being still returned not Accoted, for which chiefly are two the one is That though Mr. Causton's Cash Accompts are received up to the end of July last yet most of the Payments therein taken Credit for do not express the Services for which such Payments were made and some mention for several Services without the Particular Accompts referred to that would distinguish the same. Which Defect is soon expected to be Supplied from Georgia proper hands being employed to make out such Particulars, and which when received will be regularly entered in the Payment Book for America and Posted to their different heads of Service in Discharge thereof. The other Reason is for want of Mr. Causton's Accompt from the end of July last and the Accompt of the Storekeeper at Frederica; Mr. Causton's are soon expected and Mr. Moore's will be delivered here as soon as settled.

The Sola Bills issued in Georgia amount to £4,000 whereof there has been paid to the 13th. Instant £2,323. There is also directed for Payment to the 15th. Instant and not yet due £152.- and then standing out £1,525.- which makes the £1677.- appropriated Money for the said bills whereof in the Bank £1000 directed on Messrs. De Smith and Heathcote £152.- Balance in their Hands for Sola Bills to be directed on them £525.

The Balance in the Bank the 15th. instant £2672.16.9 whereout deduct the £1,000 appropriated for Sola Bills the remainder is £1672.16.9.

The Balance to be applied by the General Abstract is £1991.14.8 1/2 whereout £41.13.4 must be deducted advanced to the Botanist more than was payable by the Trustees until the Subscribers repay it and which is not taken Credit for in the said Abstract, and thereby the said Balance to be applied will be the Sum of £1950.1.4 1/2 whereof in the Bank as above £1672.16.9 in the hands of Messrs. De Smith and Heathcote £244.15.2 and in the Accomptants Hands £32.9.5 1/2.

Which Balance of £1950.1.4 1/2 is to be applied as follows For establishing the Colony £376.2.6 1/4. Particular Persons £261.1.0. Building of Churches £493.5.4. Missionarys £382.17.1 1/2. Missionarys to the Saltzburghers £50. And the General Religious Uses £386.16.4 3/4.

The Lands granted since the last Anniversary Meeting are; vizt.

Trustee Memorial to the King for protection of Georgia from the Spaniards. Aug. 10, 1735. C.O. 5/670, p. 329.

To the Kings Most Excellent Majesty The humble Memorial of the Trustees for establishing the Colony of Georgia in America.

Humbly Sheweth

That they being entrusted by Your Majesty with the Care of the Colony of Georgia, which was formerly part of Your Majesty's Province of Carolina, And Your Majesty's Colony of Georgia being very much exposed to the Power of the Spaniards, and become an Object of their Envy by having valuable Ports upon the homeward Passage from the Spanish West Indies, and the Spaniards having increased their Forces in the Neighbourhood thereof The Trustees in Consequence of the great Trust reposed in them by your Majesty, find themselves obliged humbly to lay before Your Majesty their Inability sufficiently to protect Your Majesty's Subjects Settled in Georgia under the Encouragement of your Majesty's Charter against this late Increase of Forces. And therefore become humble Suppliants to Your Majesty on behalf of Your Subjects Settled in the Province of Georgia; That Your Majesty will be pleased to take their Preservation into Your Royal Consideration. That by a necessary Supply of Forces the Province may be protected against the great Danger that seem immediately to threaten it.

All which is most humbly Submitted to
Your Majesty's Great Wisdom.

Trustee Petition to the House of Commons for funds for Georgia. Feb. 15, 1737/8. C.O. 5/670, p. 337.

To the Honourable the Commons of Great Britain in Parliament Assembled.

The humble Petition of the Trustees for establishing the Colony of Georgia in America.

Humbly Sheweth.

That Your Petitioners since their last Application to this Honourable House have been put very great Expences in Fortifying their Settlements and preparing for a vigorous Defence against the Attempts of the Spaniards, who continually threatened the Colony of Georgia with an Invasion.

That the Inhabitants were by frequent Alarms hindered in the Cultivation of their Lands from whence they might otherwise have hoped to have raised themselves a Subsistance.

That Your Petitioners have proceeded further in the Settling of the said Colony by sending over Foreign & other Protestants And think it their Duty to lay before this Honourable House the Necessity Your Petitioners are under to desire a further Supply in order to the more effectually establishing this Colony; having already applied with the greatest Care and Frugality almost all the Monies which have been granted them for that purpose.

And this Your Petitioners humbly hope this Honble. House will be induced to do when they shall Consider the Importance of the Situation of this Province and the Advantages which may arise to this Kingdom by producing in Georgia those Materials for the Manufactures of Great Britain which are at present purchased from Foreigners with ready Money.

Your Petitioners likewise humbly beg Leave to lay before this Honourable House That the Securing the Friendship and Assistance of the Indians in Case of need is at this time more particularly necessary for the preservation of the Colony & which must be attended with Charge and Expence.

And further That the Support of a Civil Magistracy, the encouraging the Raising of such Produces as this Province is capable of, and other incidental Charges are necessary to be defray'd in the Infant State of the Colony.

Your Petitioners therefore Pray this Honourable House to give them such Assistance in the Premises, as they in their Great Wisdom shall think meet.

By Order of the said Trustees.

Privy Council Order Disallowing South Carolina Ordiance indemnifying Indian traders who trade in Georgia. May 25, 1738. C.O. 5/670, pp. 372-373.

At the Court at Kensington the 25th. day of May 1738.

Present

The Kings Most Excellent Majesty

Arch. BP. of Canterbury	Earl of Selkirk
Lord President	Earl of Ilay
Lord Steward	Early of Fitz Walter
Lord Chamberlain	Viscount Torrington
Duke of Bolton	Lord Harrington
Duke of Devonshire	Mr. Chancellor of the Exchequer
Duke of Newcastle	Sir Charles Wills
Earl of Scarborough	Henry Pelham Esqr.
Earl of Grantham	Sir Charles Wager
Earl of Cholmondely	

Whereas the Trustees for the Colony of Georgia have by their humble Petition and Representation to His Majesty at this Board Sett forth (amongst other things) That the Lieutenant Governor Council and Assembly of South Carolina have opposed the Execution of an Act prepared by the said Trustees and approved by His Majesty in Council on the 3d. of April 1735 For maintaining Peace with the Indians in the Colony of Georgia. And that the said Lieutenant Governor Council and Assembly have passed an Ordinance in an illegal manner for raising Two thousand pounds Sterling to indemnify the Traders from Carolina in their Contempt of the aforementioned Act. And therefore prayed that the said Ordinance might be Disallowed. And Whereas the Right Honourable the Lords of the Committee of Council to whom His Majesty referred the said Petition and Representation have this day reported to His Majesty at this Board that they have taken the same into their Consideration together with the said Ordinance which was passed in South Carolina the 26th. of June 1736 Entituled An Ordiance for asserting and maintaining the Rights & Privileges of his Majesty's Subjects of this Province of South Carolina to a free open and uninterrupted Trade with the Creek Cherokee and other Indians in Amity and Friendship with His Majesty's Subjects and for the better preserving those Indians in the Interest of Great Britain. And that it appeared to them that the said Ordinance was passed in a very irregular and precipitate manner, the Governor having issued his Proclamation on the 16th. of June 1736 for convening the Assembly on the 24th. of the said month notwithstanding the said Assembly was under an Adjournment from the 29th. of May preceding to the first Tuesday in September following. And that it likewise appeared that the said Ordinance was passed by the said Assembly and also by the Council and assented to by the Lieutenant Governor in so short a Space of time as between the 24th. and 26th. days of the said month of June. And that the said Lieutenant Governor is giving his Assent to the said Ordinance hath Acted contrary to His Majesty's Instructions. And the said Committee being of Opinion that it is of the utmost Consequence to His Majesty's Service and absolutely necessary for the

well governing the several Plantations and Colonies in America that such extraordinary and unjustifiable Proceedings should be discountenanced Did therefore humbly advise That the aforementioned Ordinance should be disallowed by His Majesty. His Majesty taking the said Report into His Consideration is pleased with the Advice of His Privy Council to Approve thereof and accordingly to Declare His Disallowance of the aforesaid Ordinance, and pursuant to His Majesty's Royal Pleasure thereupon Expresses the said Ordinance is hereby Repealed Declared void and of none Effect. Whereof the Governor Lieutenant Governor or Commander in Chief of His Majesty's said Province of South Carolina for the time being and all others whom it may concern are to take Notice and govern themselves accordingly.

Trustee Petition to the House of Commons for funds for Georgia. Feb. 7, 1738/9. C.O. 5/670, p. 374.

To the honourable the Commons of Great Britain in Parliament assembled.

The humble Petition of the Trustees for establishing the Colony of Georgia in America.

Humbly Sheweth

That by reason of the extraordinary Charge attending the Defence of the Colony during the continual Danger and Alarm of a Spanish Invasion and before the Arrival of the Regiment which His Majesty in his great Wisdom thought proper to send for the Preservation of the Province; a considerable Debt has been unavoidably contracted. Which being unforeseen, could not be provided for by this Honourable House in the last Session of Parliament.

That the Inhabitants having been taken off from their Labour in the Season for Sowing to prepare for the Common Safety were thereby disabled from cultivating sufficient Quantities of Land for their Maintenance. And those Lands which were cultivated and sowed, by reason of a general Drought for a Year past, which has afflicted that part of North America, have not yielded the Crops which might have reasonably been expected. Whereby the Inhabitants do necessarily still remain Objects of Compassion to be for some time longer Supported by the Assistance of this Honourable House.

To the granting of which Your Petitioners humbly hope this Honourable House will be the more inclined from the Consideration that this Colony (as Your Petitioners are well assured) will within a few Years be found very profitable to its Mother Country by producing several Materials for the Manufactures of Great Britain which are now bought from Foreigners with ready money. And that its Situation and valuable Ports to the Southward are of that Importance to the

Navigation of this Kingdom and for securing the Trade of the West Indies As to make it the constant Envy of its Neighbours.

That the Support of a Civil Magistracy, the continuing the Friendship of the Indians, the encouraging the raising Produces, and other incidental Charges are still necessary to be defrayed.

Your Petitioners therefore pray this Honourable House to give them such Assistance in the Premisses As they in their great Wisdom shall think meet.

By Order of the said Trustees.

Trustee Petition to the House of Lords that Georgia not be affected by the Covention for settling the limits of Florida and Carolina. Feb. 24, 1738/9. C.O. 5/670, pp. 375-376.

To the Right Honourable the Lords Spiritual and Temporal in Parliament assembled.

The humble Petition of the Trustees for establishing the Colony of Georgia in America.

Sheweth

That his Majesty by his Royal Charter bearing Date the 9th. day of June 1732 granted to Your Petitioners and their Successors for ever seven undivided parts of all those Lands Countries and Territories in that part of South Carolina in America which lyes from the most Northern Stream of the Savannah River all along the Sea Coast to the Southward unto the most Southern Stream of the Alatomaha River & Westward from the Heads of the said Rivers in direct Line to the South Seas, with the Islands in the Sea lying opposite to the Eastern Coast of the said Lands, within twenty Leagues of the same. All which His Majesty thereby made erected and created one Independant and separate Province by the name of Georgia.

That the Right Honourable John Lord Carteret (the Proprietor of the other undivided eight part of the said Lands Countries and Territories, which His Majesty granted to your Petitioners) by Indenture bearing date the 28th. day of February 1732 granted and released All his Right and Property in the undivided eighth part of Georgia in the same manner to Your Petitioners and their Successors for ever.

That the Province of Georgia was granted to Your Petitioners in Trust for Settling and Establishing a regular Colony in the southern Frontiers of Carolina and not for any Benefit or Profit whatsoever to your Petitioners.

That by divers Sums of Money granted by Parliament for this purpose and by voluntary Contributions Your Petitioners have been enabled to send at several times poor British Subjects and Foreign persecuted and other Protestants to Settle in Georgia, who as well as others that went thither at their own Expence have erected Houses and cultivated Lands in several parts of the Province and particularly in the Northern and the Southern parts thereof.

And whereas in a Letter from Monsieur Geraldino then Agent for the King of Spain to his Grace the Duke of Newcastle bearing date the 21st. of September 1736 (a Copy whereof was sent to Your Petitioners by Command of her late Majesty, when Guardian of the Kingdom for your Petitioner's Answer thereto) it is asserted That the Colony of Georgia being to the Southward of the Colony of Carolina, is without dispute on the Territory of the King his Master. And whereas by a Convention between the Crowns of Great Britain and Spain concluded at the Pardo on the 14th. of January last New Style, it is agreed That the Regulation of the Limits of Florida and of Carolina should be committed to Plenipotentiaries to confer and finally regulate the respective Pre-tensions of the two Crowns according to the Treaties therein mentioned.

Therefore Your Petitioners in Discharge of that great Trust, which His Majesty has been graciously pleased to repose in them and being fully Satisfied of the undoubted Right and Title of the Crown of Great Britain

to the said Province of Georgia think it their indespensible Duty humbly to lay this State of their Case before Your Lordships, and to implore your Lordship's Protection in behalf of this part of the Dominions of the Crown of Great Britain in America, intrusted to the Care of Your Petitioners and also in behalf of his Majesty's Subjects in Georgia for whose safety and Welfare Your Petitioners are so deeply concerned.

By Order of the said Trustees
